On the occasion of world science Day Chemistry department organised an online quiz c competition, on 10-11-2023. The theme of the world science day for peace and development was "BUILDING TRUST IN SCIENCE". World Science Day for Peace and Development aims to inform citizens regarding scientific achievements by getting science closer to society. Furthermore, it highlights the importance of scientists in increasing one's understanding of the amazing and special planet and making one's communities more sustainable. Quiz was based on the theme of World Science Day. Participants from various groups have registered and participated, they gave positive feedback.
