

# LITTLE FLOWER DEGREE COLLEGE UPPAL, HYDERABAD

## ADVANCES IN PARASITE DISEASES - POWER POINT PRESENTATION

The Faculty of Zoology, Department of Life Sciences organised an awareness program on **Advances in Parasitic diseases- A Power point presentation** on 30<sup>th</sup> August and 01<sup>st</sup> September 2023 in Room No P24 at 12.30 pm. The aim of this program is to bring the recent trends and scientific advancements of diseases to the knowledge of the students. Students of BSC BZC, BtMC and MZC I, II & III years prepared PowerPoint presentations on various parasitic diseases, the causative factors and diagnosis which was followed by an active interactive session. They also discussed about the preventive measures to keep oneself healthy. The topics covered in the program are Malaria & diagnosis, Leishmaniasis, Viral infections, Cholera, animal borne zoonotic disease and their prevention, water borne diseases, Amoebiasis, Trypanosomiasis, Plague, Filariasis.

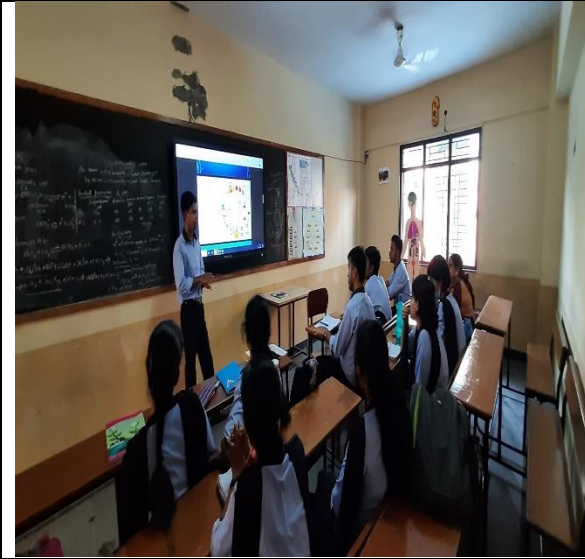

The overall outcome of the session was that the students learned about the importance of healthy lifestyle, the preventive and presumptive treatments for various parasitic diseases, their diagnostic techniques for their identification and also how to control and protect themselves from the infections or infestations.
