LENVIN

GO GREEN

The event Go Green was organised on 30.07.2019 by the Department of Computer Science. Students participated by preparing models to highlight the theme Go Green. Fourteen models were presented on various topics to finally convey the message to go Green and Save the environment. The students stressed on the burden the Ecosystem is bearing and they came out with innovative ways in which it can be reduced and the environment saved.

AWARENESS

Conservation of the Ecosystem is possible only when the waste is efficiently eliminated instead of dumping it in the ecosystem. It is possible when the four Rs-Reduce, Recycle, Reuse, Refuse are followed. Demonstration on the theme Reduce, Recycle, Reuse, Refuse was organised by the Department of Commerce on 30.8. 2019. The members prepared banners and placards on the four topics and presented them to all the students in their classes. They stressed on waste management, reducing the use of toxic materials and recycling of the products.

FLASH MOB ON “Save Earth- Avoid pollution and Go green”

Conservation of the Ecosystem is the need of the hour, the blue Planet is facing crisis due to many factors such as pollution, deforestation, Global warming etc. Keeping these in mind, LENVIN club members organised a flash mob on 11.09.2019 in Karunya court. They enacted and showed the ill effects of pollution and deforestation on the ecosystem. They stressed on how to save Earth by adopting the slogan **“Save Earth – Avoid Pollution and Go Green”**. This show was witnessed by all the students of the college in the Karunya court.

Stitching and Distribution of Ecofriendly cloth bags to reduce the use of plastics.

Ban Plastics and say No to Plastics, only then the Ecosystem can be saved from the plastic accumulation. The members of LENVIN took initiative to ban plastics and they made Ecofriendly cloth bags. The Department of Microbiology and Biotechnology initiated the members to stitch and distribute the ecofriendly cloth bags to the public on 21.09.2019, so that they forbid the use of plastic bags. The public appreciated this initiative and readily accepted the cloth bags.

‘SHARE A MEAL’ A visit to charity

In the bustling metropolis of Hyderabad, there lies a humble abode which cares for the sick and dying destitute.

Charity is often associated with making huge donations in the form of money, kind. But people forget to realize that it's a heart- warming act. In the words of Mother Teresa "It's not how much we give but how much love we put into giving." On 13th August, The Department of Life Sciences organized an activity 'share a meal'. This was assisted by our dedicated Teachers and members of Student Council.

Students from different courses gathered to take a detour from their hectic schedules. Each one of us was speechless by the quaint yet magnificent establishment. Mother Teresa's home for Sick and Dying Destitute established in the 1970's with an ambition to care for the down-trodden and unwanted. The greenery and the inviting atmosphere with the statue of Mother Teresa refreshed our tired minds. The calmness and the serenity that prevailed there took us to another dimension. It housed around 200 people with the care-takers.

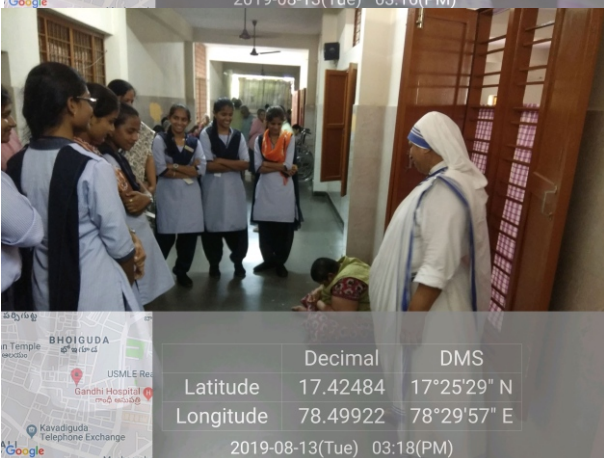

At first we were apprehensive looking at their condition. Their smile and excitement was enough to win our hearts. We interacted with many ladies of the home who were very eager to talk to us. They shared some of their life experiences with us. We distributed snacks in the form of eatables and drinks. The women were very welcoming and amiable. The staff was unrelenting and patient towards them. The head nun answered many of our queries and gifted us with immense knowledge. She implored us to take care of our parents as they are equal to God. Susheela, Sarojana, Lucy, Asha are the names of the few ladies. We interacted with many unfortunate bed-ridden patients. My friends and I were moved by the destitute state of some. A wave of reality and responsibility descended upon us. Being teenagers, we always complain and take everything for granted. We increment things as we were provided with it in surplus. What would you do if all of a sudden all your rights are taken away from and your family disown you? What would you do if your free will is curbed and you are put in a confinement? What would you do if everything is against you? Are some of the nightmarish questions that I'm too scared to imagine?

We cannot do great things on this earth but small things with great love. A small act of charity is enough to make a difference in a stranger's life. The main thing I learnt was to remain thankful to God and our parents. Throughout the whole trip, I kept thinking and remembering them. The second I learnt was to drop the complaining attitude and accept everything with a grain of salt. The third thing was to incorporate empathy into life. I was in extreme gratitude of everything I was provided with and the air that surrounds me.

To sum up, this trip was a thought-provoking and heart-gripping one. This invoked our consciousness and helped us prioritize our tasks. The interactions pulled our heart strings and were emotional. I thank the Principal and Vice Principal for giving us this opportunity. I thank our teachers for accompanying us and helping us. They are heroes in their own way. I also thank my friends for cooperating with us. I most importantly thank the management of Home for allowing us and the residents for being such great sport because this was one life-changing experience.

Language, what is Language?

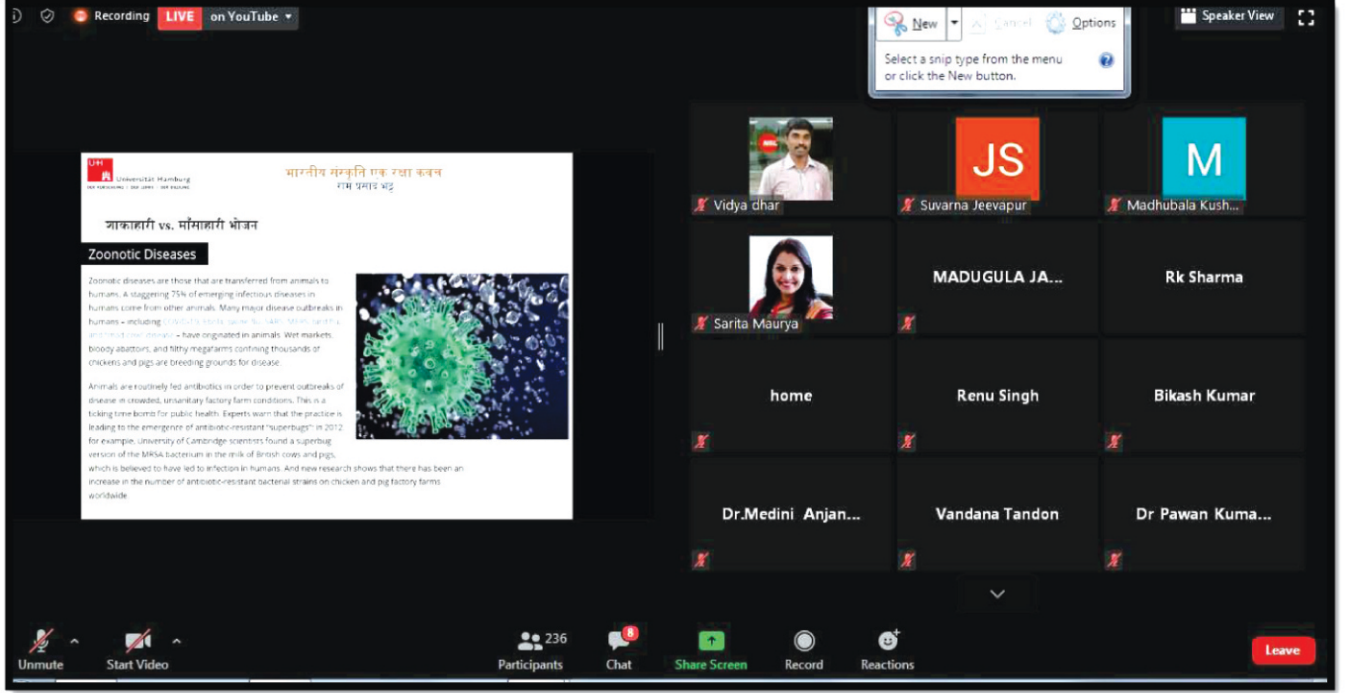

Language is not only a vehicle for the expression of thoughts, perception, sentiments and values, characteristic of a community; it also represents a fundamental expression of social identity – By Edward Sapir

Language is a tool to

- Learn knowledge
- Transmit information
- Express feelings, emotions and ideas
- Forge cultural ties
- Construct social identity

International Mother Language Day is celebrated every year on 21st Feb since 1952 in memory of the sacrifices done by the four students from Dhaka, the Capital of Bangladesh, who fought for their mother language. To commemorate these sacrifices we celebrate this day.

FRENCH MOVIE SCREENING – DESPICABLE ME

Despicable Me is a 2010 American 3D computer-animated comedy film produced by Illumination Entertainment as its debut film and project and distributed by Universal Pictures. The film was animated by the French animation studio Mac Guff, which was later acquired by Illumination. Directed by Pierre Coffin and Chris Renaud in their directorial debuts with a story by Sergio Pablos, the title references the main character as he refers to himself and is accompanied by a song by Pharrell Williams. The film stars Steve Carell as the voice of Gru, a supervillain who adopts three girls (voiced by Miranda Cosgrove, Dana Gaier, and Elsie Fisher) from an orphanage; and the voice of Jason Segel as Vector, a rival of Gru who steals the Great Pyramid of Giza. When Gru learns of Vector's heist, he plans an even greater heist: to shrink and steal Earth's moon. However, despite Gru's villainous intentions, he grows increasingly touched by the girls' growing love for him and finds himself changing for the better because of it. The movie screening is done to enhance the speaking and the listening skills of the students which they do here by enjoying the movie.

MOVIE SCREENING

The Buddha Charitha was the biography of Buddha which was penned by Ashwagosha probably in the 1st Century CE. On 28.02.2020 students of 1st year were shown a movie on Buddha after completion of the lesson. In this kavya it reflects a vast knowledge on Indian mythology and pre-Buddhist philosophies. Today's civilized world taking pride in just science & technology by leaving human values. Violence has become a new philosophy with which the crime rate has increased. So, to develop human values and emotions the present lesson is given for 1st year students. "Visualization is more effective because it involves all your senses".

Movie Screening

On 21st September 2019 a movie was screened for 2nd Year Students by Sanskrit Department. The Upanishads are records of the deepest spiritual experiences of the ancient Indian Rishis. Those are the supreme works of the Indian mind. There are total 108 Upanishads, out of which ten are most popular. In those ten "Kathopanishad" is one which consists of two chapters each divided into three sections. It is the legendary story of a little boy, Nachiketa – the son of Vajasravasa who meets Yama (the Hindu deity of death). By this story students have learnt how a small boy goes in a

NATIONAL WORKSHOP

Computational linguistic tools are programs that perform operations on linguistic data, i.e., analyses, transformation or other tasks that add to or change language data or that assist people in performing such tasks. Department of Sanskrit had conducted one day workshop on 31st Jan 2020 in collaboration with Sanskrit Academy, Osmania University on "Computational Linguistic Tools". Students of Little Flower and Osmania University participated in this. Faculty from several colleges and other Sanskrit language lovers have also joined the workshop. Dr. K. Neelakantham, director of Sanskrit Academy, Osmania University was the chief guest and the resource persons of this workshop were Dr. K. Varalakshmi, deputy director of Sanskrit Academy & Dr. Sanjeev Panchala Sanskrit lecturer in City college. The program was divided into three sessions. Opening ceremony was started with lightening of lamp and prayer. After that the chief guest addressed the gathering in which he included importance of linguistic tools. Soon after that he was felicitated by our vice principal madam Smt. Jayanthi. Students very enthusiastically interacted with the chief guest and clarified their doubts regarding the tools and ancient language. After a short break, first theoretical session was started by Dr. K. Varalakshmi and next practical session was continued by Dr. Sanjeev Panchala. Valedictory done with the felicitation of both resource persons and national anthem. Participation certificates were issued to the participants for their active participation in the workshop.

CDFD

The open day of Hyderabad-based for Centre for DNA Fingerprinting (CDFD) attracted many students from various schools and colleges. The open day at CDFD on 27th of January 2020, gave an opportunity for students to get first-hand exposure to latest developments in DNA technology in laboratories and also interact with in-house scientists. Final year students of Biotechnology attended that open day and participated actively. Visited various stalls opened by young research minds along with their research exhibits. Students interacted very interestingly and were able to know about the current research technologies that are happening at molecular level.

INTER-COLLEGIATE COMPETITIONS

Department of Biotechnology conducted Quiz competition as a part of Edge'2019 an Inter-Collegiate Fest on 30th December 2019. As participants registered for the competition they were divided into teams. As this quiz competition is the same with regular quiz, first round was regular, where each team was given five questions each, then the second round was rapid fire round and final round was identifying the picture. GUEST LECTURE AT CSIR IICT ON CRISPR TECHNOLOGY BY VIRGINIJUS SYKSNYS

CSIR-Indian Institute of Chemical Technology organized guest lecture on 24th January 2020 on "CRISPR-Cas System, a DNA editing tool" at seminar hall, CSIR-IICT. The resource person was Geneticist Virginijus Syksnys of Vilnius University, Lithuania. Few Students from Biotechnology 1st, 2nd and 3rd year took active participation in the guest lecture. As a part of 'Dr. Manohar V.N. Shirodkar Endowment' lecture of the Telangana Academy of Sciences on January 24 at 4 p.m at CSIR-IICT Dhanrajgir. Dr.K.Narasimha Reddy, president of academy and IICT the honorary secretary of the Dr.Ch. Mohan Rao, former president of academy briefed the audience on the endowment speaker. Prof. Virginijus Syksnys said it is very much possible to reprogramme DNA and cut it as you wish under certain conditions. One of the requirements of a small DNA sequence called 'PAM' for this technology to work and this limits its use and also described how CRISPR technology was developed, main features and the challenges associated with it during the course of his talk. This technique has opened the possibility of treating diseases like cancer and also correct many inherited diseases. It can also lead to new and better varieties of food crops and vegetables. The gene editing technology is likely to revolutionise biology, agriculture and medicine he added.

GUEST LECTURE ON NGS

The Department of Biotechnology organized guest lecture on 6th February 2020 on "Next Generation Sequencing Technologies (NGS Technologies)" at seminar hall, LFDC. The resource person was Dr. AravindSetti, Molecular Biology Division, Ruha Life Sciences. Students from Biotechnology 1st, 2nd and 3rd year took active participation in the guest lecture. He started session with what are the basic techniques and methodologies involved in sequencing DNA along with their disadvantages and revolutionary technologies and continued explaining about principles behind Next Generation Sequencing, different platforms available for the sequencing and how NGS is able to modernize and fasten up the research in the field of biological sciences adding a note on advantages of Next Generation Sequencing Technologies. The session comes to end by the vote of thanks.

LENVIN ACTIVITY- DISTRIBUTION

Plastic pollution is currently one of the biggest environmental concerns. It may seem like large amounts of plastic waste are inevitable in the world we live in, but you can help with the plastic pollution issue by being aware of its dangers and taking steps to reduce waste. The amount of garbage in the world increases as the population grows, and disposable plastic products, like water bottles and soda cans, accumulate over time. Plastic pollution occurs when enough plastic has gathered in an area that it affects the natural environment and harms plants, animals, or humans. Plastic has toxic pollutants that damage the environment and cause land, water, and air pollution. It can take hundreds or even thousands of years for plastic to break down, so the damage to the environment is long-lasting. Overuse of plastic is the main cause of plastic pollution. Plastic is cheap and widely available, but people frequently dispose of plastic items. They don't decompose, and they release an incredible amount of toxins into the air if they're burned. Regular, everyday trash is one of the biggest contributors to plastic pollution. Milk cartons with plastic linings, disposable water bottles, soaps with small plastic beads, and other products end up in the environment or in dumps where they can affect the groundwater and nearby wildlife.

On 21st September 2019, The Department of Biotechnology and Microbiology in association with LENVIN which was assisted by our dedicated Teachers and members of LENVIN took an initiative of educating public about plastic pollution and distributing had stitched cloth bags to the public in and around our college premises.

LIFE ACTIVITY- EDUCATION

Immunisation describes the process whereby people are protected against illness caused by infection with micro-organisms (formally called pathogens). The term vaccine refers to the material used for immunisation, while vaccination refers to the act of giving a vaccine to a person.

Some Immunization facts:

1. Immunization saves 3 million lives every year.
2. More than 1 million infants and young children all over the world die every year from rotavirus diarrhoea and pneumococcal disease. Both of these diseases can be prevented through vaccination.
3. Immunization reduces mortality, morbidity, reduces direct and indirect medical costs.
4. Vaccination protects children from serious illness and complications of vaccine-preventable diseases.
5. Vaccine-preventable diseases, such as measles, mumps, and whooping cough, are still a threat.
6. If children aren't vaccinated, they can spread the disease to other children who are too young to be vaccinated or to people with weakened immune systems, such as transplant recipients and people with cancer. This could result in long-term complications and even death for these vulnerable people.
7. Vaccination is very safe and effective.
8. Vaccines have reduced and, in some cases, eliminated many diseases that killed or severely disabled people just a few generations ago. For example, smallpox vaccination eradicated that disease worldwide..
9. Getting immunized costs less than getting treated for the diseases that the vaccines protect you from.
10. If exposure to a disease occurs in a community, there is little to no risk of an epidemic if people have been immunized.

Webnair by Fr. Joji Reddy

Department of Biotechnology exclusivelyorganised a webinar on "SIGNALING NETWORKS IN CANCER". The resource person was Rev. Fr. Dr. L. Joji Reddy SJ., Vice-President, Xavier Board of Higher Education, India, Assoc. Prof in the Dept of Biotechnology, Vice-Principal, Loyola Academy Degree & PG College, Alwal, on 18th May 2020. Students, Faculty and research scholars fromvarious parts of India took active part in the session. Session started with introduction to Cancer, how it establishes and affects the various pats of the body. But the session was mainly emphasised on various key signalling pathways which could play a vital role for establishment of cancer and also in becoming potent targets of vaccine and therapy development. Various molecular aspects of the cancer were discussed. Participants even took active role in the questionnaire too for which they could find answers and the session ended with a vote of thanks.

WEBINAR ON COVID 19

Department of Biotechnology and Department of Microbiology together organised a Webinar on "THE SCIENCE OF COVID 19 – AN OVERVIEW" on 4th May June 2020. The resource person was Dr. M. N. Nagendra Prasad, Assoc. Prof & Head, Dept. of Biotechnology, JSS Science & Technology University, Mysore. Students from 1st , 2nd and 3rd year Bt. M. C. took active part in the session. Session started with introduction on COVID 19 infection and its transmission and symptoms. But the major part of the session went on vaccine development centric and various strategies and targets which were involved in development of the vaccine. Guidelines followed during the development of vaccine and various molecular aspects were discussed. Students participated even in the questionnaire too which was thought provoking and the session ended with a vote of thanks.

DEMONSTRATION ON VERTICAL GARDENING

Department of Botany organized demonstration on vertical gardening on 28th January 2020. Vertical gardening systems can be defined as any type of support or structure that is used to grow plants up and off the ground. They come in tons of different shapes and sizes, and can take on many forms. Vertical gardening systems add structure and beauty to the garden, and give it tons of character. Plus they allow us to grow in spaces we never would be able to otherwise. When you start considering all of the different types of vertical gardens you could create, it will really open your eyes to a whole new way of thinking. There are many types of structures and supports you can use for growing plants vertically, and there's a lot of room for creativity. We used empty bottles of cold drinks for vertical gardening and planted some climbers as well as some seeds of coriander, fenugreek and spinach. Students from second year and final year BZC participated enthusiastically.

Guest Lecture at IICT : CRISPR –CAS : FROM BACTERIAL IMMUNITY TO GENOME EDITING TOOLS

On January 24, IICT arranged a guest lecture on CRISPR –CAS 9 technology through the M. V. N. Shirodkar Memorial Lecture series organized by Telagana Academy Sciences. The chief guest lecturer of the evening was Prof. Virginijus Siksnys. The session had many notable heads from different areas of research. Prof. Virginijus Siksnys, the pioneer of CRISPR- CAS 9 Technology gave a gratifying and enriching talk. He delved into the depths of the revolutionizing technology and its potential to transform the field of science and future. It was an enlightening and informative experience. A few of our students talked to him personally and he received them with amiability. He clarified their doubts and wished them good luck for future endeavours.

Guest lecture: Biotechnology and its applications.

The use of biology to develop technologies and products for the welfare of human beings is known as Biotechnology. It has various applications in different fields such as Therapeutics, Diagnostics, Processed Food, Waste Management, Energy Production, Genetically Modified Crops etc. Department of Botany organized a guest lecture in order to throw more light on Biotechnology and its applications on 3rd March 2020. Dr. Pramila Rao head, department of Botany from Andhra Mahila Sabha Degree college for women was invited for the Guest lecture. Dr. Pramila gave deep insight to the topic. Students from first, second and final year B. Sc. Botany attended the guest lecture and interacted with Dr. Pramila clarifying their doubts. It was indeed an informative session.

INTERCOLLEGIATE COMPETITION: BOTANY TAMBOLA

Department of Botany has organized intercollegiate competition Botany Tambola on 30th December 2019. This competition was based on questionnaire session on Botany. We framed the questions related to Botany and answers for those were printed in Tambola tickets. The result of the competition was based on the correct answers given and ticked in the Tambola ticket by participants. The winners were given mementos and certificates. Participants enjoyed this Tambola competition a lot.

INTRACOLLEGIATE COMPETITIONS: BOTANY CROSSWORD

Department of Botany has organized intracollegiate competition Botany Crossword on 06 th January 2020. .The crossword made was based on topic photosynthesis in plants and morphology of plants. The result of the competition was declared on the correct answers given in the crossword by participants. The winners were given mementos and certificates. We received huge response from students of other programs from Little Flower Degree College.

NATIONAL SCIENCE DAY: WOMEN IN SCIENCE

Department of Botany celebrated National Science Day on 28th February 2020 on the topic Women IN science. Students participated in huge number to display the scientific work done by women in the field of Botany. "The first Indian woman botanist," Dr. Janaki Ammal, Dr. Barbara McClintock PhD in botany, Dr Hema Sane, Seed mother of India Rahibai Soma Popere and many more women scientists and their contribution in science was displayed by participants on the occasion of National Science Day.

ROLE OF PLANT SCIENCES IN COMBATING PANDEMICS

As the world is fighting against the pandemic caused by Covid 19, we decided to conduct One Day National Webinar which will include the home remedies, futuristic approach and impact of pandemic on environment. Department of Botany organized one day National Webinar on ROLE OF PLANT SCIENCES IN COMBATING PANDEMICS on 15th May 2020. This was conducted online through ZOOM platform. The eminent speakers were invited from various reputed institutes to deliver the talk on ROLE OF PLANT SCIENCES IN COMABATING PANDEMICS. We received huge response, as participants participated in the event across the world. All the sessions were very informative and interactive. It was a grand success.

The topics for National webinar were

1.Immuno booster plants : by Dr. Dr. K. Raghunath Senior Ayurvedic Physician , Hyderabad .

2.Molecular Farming: For Human welfare. : by Dr. G.V. KRISHNA programme Director , Centre for Livelihoods, National Institute of Rural Development and Panchayati Raj, Hyderabad

3.Impact of Covid 19 on environment : Dr. NISHA NAIR Assistant Professor & Head of Department of Botany, St. Joseph's College for Women, Alappuzha, Kerala.

ORGANIC COLOR PREPARATION

Department of botany conducted organic color preparation activity on 20th December 2019. BZC II and Final year students prepared different colors from plants and plant parts using as a source. Various colors like red, green, blue, magenta, yellow prepared from plants and plant parts. Root of beet, leaves of spinach, petals of marigold, petals of clitoria, carrots, turmeric were used to prepare the colors. These organic colors were totally Ecofriendly free from carcinogenic effect of synthetic colors. Students understood the importance of organic colors and decided not to use artificial colors during Holi.

DISTRIBUTION OF SEED BALLS

Department of Botany conducted departmental activity named Distribution of seed balls on 14th September 2019 at Uppal Cross Road. BZC second year and final year students prepared seed balls i.e. seeds of trees like custard apple, neem, tamarind, jamun, Delonix enclosed in soil/ mud. We distributed these seed balls to the people who were traveling to long distance place. We told them to throw seed balls wherever they see barren land. As it is rainy season seed balls will get germinated easily. People understood the importance of plantation and also appreciated our efforts to plant the trees in an innovative way.

PROGRAMMING WITH R

The department of management of little flower degree college conducted Programming with 'R' on 13th May 2020 through a webinar. We had a special doctoral speaker, Kandela Ramesh, from the department of Management OU. Students of all the 3 years of BBA from different college attended this webinar. The speaker delivered a very good lecture on the program with 'R' followed by its carrier opportunity. The faculty of management invited all the B.B.A student of Little flower degree college and other colleges to witness the same.

Telangana Hub

The students of all the years of BBA visited India's biggest incubation center, the Telangana Hub located in the IIIT-Hyderabad Campus, Gachibowli. It is popularly called T-Hub. The students were received by Mr. Shankar, a representative of T-Hub who showed them around the whole facility. Further Mr. Abhinav took to explain things in much detail. He presented the actual policies of T-Hub. In contrary to the misconception that T-hub provides support to unestablished start-ups; it actually provides support to only fintech companies that have already established. T-hub still offers various opportunities to budding entrepreneurs through its various branches. For example, TSIC provides training to people aiming to become entrepreneurs. T-tribe is a community that T-Hub connects people with various skills looking for an alliance to form for their startup. He also spoke about the functioning of start-ups in T-Hub. Approximately 160-170 start-ups have a physical presence in T-Hub. They are to pay a minimal amount for the facilities provided inside T-Hub. He also explained about the legalities the start-ups have to go through. They had also learned that T-Hub has connections with about 3000 start-ups. There was a reveal of the metaphorical factory that the building T-Hub is located in it's banned Catalyst. It has seemed apt for the organization that deals with business accelerating. The students had been fascinated by the functioning and policies of T-Hub.

FINAL YEAR PROJECT WORKSHOP

The department of management of little flower degree college conducted a project workshop on 14th December 2019. The faculty of management has invited prof. R. Nageswar Rao and Prof. D. Sreeramulu as the resource persons.

Prof. R. Nageswar Rao (MBA, Ph.D., DCO) is the Head of Business Management, OU and Director, IQAC, OU, and Professor - Finance & IT. Prof. Rao has exceptional experience of 26 years in Teaching and 4 years of Foreign Service in Sharjah, Srilanka, Oman & UK. He has published 25 books, edited 2 books, and published 6 books on his denotation.

Prof. D. Sreeramulu (MBA, LLB, Ph.D.) is the Dean of the College of Development Council – OU, Chairperson of Board of Studies, and Professor of General Management & Marketing. He has completed two Research Projects (AICTE and UGC). Prof. Sreeramulu has 22 years of Teaching Experience. He has published 43 articles, 1 Book, and 14 books are under Publication. 10 books had been edited on his denotation.

The workshop was conducted for the students of the final year of BBA. The agenda was understanding the final year project. The project is considered rather important as it is the practical aspect of the course as well as, has credits worth a subject. The students have given undivided attention to knowledgeable speakers and have been enthusiastic throughout the session. They have asked various questions regarding the project and had their doubts clarified. The faculty of management has also benefited from wise counsel in their presence.

Student Orientation Programs

Orientation for II & III Year Students

The academic year 2019-20 commenced for the second and final year students on 4 July 2019. The theme of the event was "Success Consciousness". In his welcome address the Principal of the college, Rev. Bro. Vincent Reddy, encouraged students quoting, Education is not the preparation of life, but Education is life itself. Education not only involves academic results but also cultural and literary awareness in an individual's life. He challenged them saying 'There is no short cut to success; Hard Work is the only way. Success needs strong mindset, self-confidence and positive attitude. He talked about the present distraction faced by students such as Mobile and Social Media and advised students to sharpen their minds solving puzzles and reading books. The guest Speaker of the day was Dr. Anitha Evangelin, Additional Director of Forensic laboratories, Vice Principal at Methodist Degree College. In her address, she suggested students to set goals and work every single day to achieve them and be successful in their lives. She explained about the reality of Time Management and advised them to balance their time between friends, family and studies and talking about Energy levels of a human being, she told them to use it in a productive way.

Orientation for I Year Students

An orientation program was organized on 11 July 2019 for the first year students as they begin their

three-year journey with us. Many students were accompanied by their parents and the college handbooks were given to them as they entered the auditorium. The Program commenced with lighting of the lamp followed by prayer. The second year students explained the vision, Mission and Logo of the college to the audience. Principal Rev. Bro. Vincent Reddy welcomed the students, parents and explained about the three hundred years legacy of the Montfortian institution. He also inspired and challenged students to choose right friends and aspirations as well as plan and prepare well to be successful. He explained these Ideas telling the moral stories of 'The dog and a rabbit' and the story of 'a guru and a young man'. The Guest speaker of the day Mr. Mohammed Yusuf, Founder & CEO of Catalyst ONE Consulting Services, advised the students to set goals, plan and use all the resources well to achieve success with hard work and proper time management. "When you want to succeed as bad as you want to breathe...then you are on your way to being successful"

Annual Day

Little Flower Degree College, Uppal celebrated its 12th Annual Day on January 11, 2020 in a resplendent manner with vibrancy and magnificence. Dr. Rajat Kumar, IAS, Chief Electoral Officer & E.O. Principal Secretary, Telangana State and Mr. Mohammad Musharraf Ali Faruqui, Additional Commissioner, GHMC, Telangana State, graced the occasion as Guests. The evening commenced with a musical invocation and Lighting of the Lamp followed by a dazzling welcome dance. This was followed by a visual presentation of Progressive Annual Report. The Principal of the college Rev. Bro. Vincent Reddy in his welcome address acknowledged the patronage of everyone present and talked about the challenges faced today in the Information Age. Quoting "Where is the wisdom we have lost in knowledge? Where is

the knowledge we have lost in information?" He exhorted the gathering saying Let us 'not go where the path may lead; go instead where there is no path and leave a trail.'

Guest of the day Dr. Rajat Kumar complimented the Principal on nurturing a wonderful institution where he witnessed the true spirit of India. Expressing his concern over the elite and the educated of the society not taking part in Democratic Processes, he appealed to the audience to take active part in voting, to be vigilant and to make right decision. He also encouraged the college management to engage the students in the 'Electoral Literacy' assuring his support. Dr. Rajat Kumar in the end urged the gathering to be responsible and not to be afraid to 'be the change' quoting Mahatma Gandhi, "Be the change that you wish to see in the world."

Events

Remembering his college days, Mr. Mohammad Musharraf Ali, guest of the day, motivated the gathering to always keep the Child, Student alive in them and identify what they are made of. He encouraged the students to give back something to the society.

Awards were presented to the students who excelled in Academics, Literary & Cultural competitions and extracurricular activities by the guests. This was followed by cultural program, which was an amalgamation of various hues highlighting the true Spirit of India. Scintillating performances representing traditional folk dances across the nation captivated the audience. Props and costumes added color to the celebration with the synchronized dance movement to the foot tapping music. Patriotic melodies by the College Choir enthralled everyone present. The Program ended with Vote of Thanks and the National Anthem.

Christmas Celebrations

The Manger Christmas is a time of celebration and festivity to remember the birth of Jesus. The beautiful Christmas tree and the Manger was set up in the college premises by the second week of December.

Faculty – 20 December 2020 The Christian faculty of the college organized a Pre-Christmas celebration on 20th December for the faculty to mark the importance of Christmas celebrated all over the world. The program included prayer, singing Christmas carols, scripture reading, Christmas cake and games. The highlight of the program was the arrival of Santa with secret gifts for everyone with their names written on it followed by lunch fellowship.

Students - 21 December 2020 On 21 December, a Pre-Christmas Celebration was organized for the Students in the auditorium. Students actively participated in welcome dance, prayer, singing Carols and scripture reading. Jeremy from I BBA shared the significance and true meaning of Christmas.

Students enacted the Nativity Play, recreating the scene of Jesus' Birth with background narration. Principal Rev. Bro. Vincent Reddy, enlightened the students by signifying the importance of why the birth of Jesus is celebrated all around the world with such joy and gaiety. He narrated the history of the times before and after Christ. He explained the meaning of Christ, which is the 'anointed', and Mass, the gathering. He pointed out as to how there were people who were against these celebrations and popularized the term-X-Mass, which literally translates to No Christ. He also talked about God the Supreme power, and Christ who came to take away the sins of the world. He illustrated this concept with a story 'Just Drop! – A Crow and Garuda'. And encouraged everyone to search hearts and get rid of unwanted things in life that stop us from growing and to be free and experience joy and freedom everyday not just on Christmas day.

Afterwards Christmas cake was cut and

Faculty from School performed a beautiful choreography, and LFDC faculty lightened the atmosphere with a comical skit with a serious message- "To keep away from Sin."

Rev. Bro. Yuju Francis in his Christmas message quoting the words from the Bible, If God is with Us, Who can be against us – Romans 8:31. He said that we all are abode of the divine though we come from different cultures and

distributed everyone. And right then the arrival of Santa spread the cheer when students danced along. Vice Principal Ms. Jayanthi Reddy distributed gifts to students who participated in the carol, singing, dance and Nativity Play, applauding them and encouraging all the students to have the same spirit.

Little Flower Community – 21 December 2020 By the evening the college premises was fully lit up with colorful lights created a perfect atmosphere of the holy night. The celebration commenced with prayer followed by carol signing, advent Wreath, Scriptures Readings from the Bhagvad Gita, the Holy Quran and the Holy Bible. Intercessory prayers were offered for Montfort institution worldwide, Little Flower institution, Students, faculty and their families, World peace, our nation, state and the youth of our country. The manger was presented with all the figurines and candles were lit up all around.

religions. One needs to share the same divine with our family members, relations, students and people around our vicinity. In this way, we share the bond of love.

Later Rev. Bro. Vincent Reddy shared the Christmas message illustrating with two natural phenomenons. One is the tree and the importances of its roots that are not seen are essential for the growth of the tree that is seen in its trunk, leaves, flowers and fruits. The stronger the roots the tree can withstand anything. In the similar way, the roots are our

spirituality, unless we work on what is unseen it is difficult to sustain what is seen. It is important to connect daily with God as the tree provides shades, fruits etc for people, we should care for others and God will take care of us. We should consider Not just what God can do for us what we can do for God. The other one is Giraffe, as the mother kicks the baby to stand up and starts walking upon giving birth to survive and not devoured by wild animals, similarly the struggles we face in life are God teaching us to face, learn from it and teach others.

The cake cutting and the arrival of Santa added more joy to the event. There were games played in groups and the celebration concluded with a fellowship Dinner and gifts for each one.

Faculty Orientation Programs

Dedication, Commitment and Teamwork - Dr. Rev. Fr. Vijay Joseph, Behavior Therapist and Counselor

The greatest discovery of our generation is that human beings can alter their lives by altering their attitudes of mind. As you think, so shall you be. —William James

Beginning of the academic year 2019-20, a faculty orientation was organized by the Management on 1 July 2019. Dr. Rev. Fr. Vijay Joseph speaker of the day encouraged faculty to look at one's own self and accept and to look at oneself as beautiful and do the best and wait for none's approval. He spoke about various factors of personality development, saying "what I say and intend the same should be understood by others' both verbal and non-verbal communication. Personal and social growth of a human being is connected to intuition, character, motivation, relation with others and good communication. He pointed that Students of the present days possess high IQ but low EQ and thus Teachers of the educational society should balance the students EQ with little extra care and attention. Emotions play a vital role in personality development and over powers our intellectuality. Teachers should be empathetic enough to deal with students in the best possible way in the classroom. He also talked about attitude saying it influences behavior, giving an example of the iceberg what we see and what we cannot see. Student and lecturer should maintain healthy relation and lecturer should be able to understand a student's state of mind and capabilities.

Bank Facilities and Various Schemes - Mr.Shahbaz Ahmed, Manager, South Indian Bank, Habsiguda Branch, Hyderabad.

On 24 Sept 2019, Mr. Shahbaz Ahmed, the bank manager was invited to orient faculty on various schemes and help with problems faced by the faculty in banking. He listened to the Problems faced and gave appropriate solutions and directions to safeguard their private info. He also warned against the common frauds prevalent in the banking sector. He mentioned in detail about CIBIL Score and its uses and benefits. One must be very careful when looking for credit scores and it shouldn't be viewed frequently in a year otherwise credit scores go less every time. He also spoke about the various types of loans like home loan, vehicle loan, education loan personal loan and the eligibility for the loan as well. He discussed the benefits of the **Mirror+ App** provided by the bank and suggested every faculty member to download it for a better banking experience.

Cooperative Society – Mr. Nagarjuna, HoD, Commerce, LFJC

The LFDC management had organized a session on Co-operative Society on 17th October 2019 to educate the faculty of its functions and promote welfare in day-to-day life. Mr. Nagarjuna said that The Society is a voluntary association of individuals seeking self-help. To join or not to join to leave or not to leave the association are absolute prerogative of the individual. No one can force or influence anyone in this regard it is an association of persons, working together with common economic objectives, providing support to the members and pooling individual resources for common benefit. He gave examples drawing principles from various companies such as Amul, Thums Up, Parle and APCO handlooms that have started small and made it big. He also encouraged the faculty saying if we have the will we can contribute small and make it big. Then he explained about the LFJC Cooperative Society, which was started in the year 1997 for staff welfare. He said that the guiding Principles of LF Cooperative society is to render service - not for profit, Mutual help - not competition, Self-help - not dependence and the motto is One for all - All for one. He mentioned that Members come together voluntarily by choice, not by force. Member may leave as per their will, upon fulfillment of any pending commitments. He explained in detail about the governing of the society with a committee. He also mentioned that the society is a Provision of service, not profit maximization. However, minimal profits are made only to ensure sustainability of the Society and it offers quality Services/Goods at reasonably low rates. Finally, he concluded that Cooperative Societies thrive on the principle of mutual help.

to the students. He also presented the

personality traits of a teacher reciting slogans in Sanskrit, Sundaraha (Elegant): The teacher should be Smart, elegant and presentable in the class, Sumukhaha (Radiant): The teacher should be positive, graceful, and fresh and should be energetic, Sahutantravith (Accessible): The students should be able to access the teacher freely. He encouraged the faculty never to underestimate a student because they are highly inquisitive. Bahutantravith (Skilful): Teacher should have various skills and in communication should be able to tell the truth without hurting. He spoke about the difference between Change and Transformation by giving the example of water and milk respectively. Change is temporary and Transformation increases value of a person or a thing. Change will reverse back to its state like water, ice and ice to water but transformation will completely change and like milk to curd and ghee which will not turn back to milk. He also said that teacher's job is to transform the students. He advised saying that a teacher should be inspired first and then inspire others. He said, "Teachers should always be role models". He said that Teacher's job is a holy one, which can create another Rama, Buddha, and Jesus and so on. He narrated a story from the life of Michelangelo where he finds a stone and feels that Jesus Christ was crying from inside the stone wanting to come out. Michelangelo sculpted the stone into a statue of Lord Jesus Christ. He told this story to make teachers think and believe that every student is unique and they have some hidden skills and talents. It is teachers' job to find that quality and help student to shine in their life.

Faculty Peer Teaching - Zoom Portal

COVID-19 has altered our lives in more than one and though change has been unfavorable for some, for many it has brought out the best and LFDC is happy to be counted in this as it is moving forward undeterred by the circumstances. The sudden lockdown challenged everyone to continue teach from home, the faculty were given training on how to teach online. Moreover, to practice the same to be confident a peer teaching was organized by the management from 2 to 7 April 2020 for the faculty. Each faculty took turn to teach subjects that they handled and after every teaching a feedback was provided for improvement. This was an truly incredible and an enriching experience for everyone where we were able to learn from one another to outshine in enhancing our teaching skills.

Faculty Picnic: Nagarjuna Sagar

Faculty Picnic: Nagarjuna Sagar, Nalgonda and Guntur Districts

The journey began with a prayer at 7 AM on 8 February 2020 from the college campus. When the bus reached the outskirts of the city, around 8:30AM we had breakfast in the open fields and the journey resumed singing, dancing and playing Tambola inside the bus. Nagarjuna Sagar dam region, located in Nalgonda district of Telangana is home to some of the oldest Buddhist civilizations in India, where a vast number of historic coins and artifacts were discovered during the construction of the dam. On the way to the dam, we stopped at Buddavanam, which is renowned as the Buddhist Theme Park, close to the right bank canal of Nagarjuna Sagar dam towards Telangana side. The museum showcases an impressive display of Buddhist Sculptures, Tankas, Bronzes, Pala, Gandhara Sculptures, Ajantha Paintings and Stone

Sculptures. There are new galleries being added here for preserving timeless monuments and sculptures that depict the rich past heritage and glory of this region, which was once inhabited by Acharya Nagarjuna, one of the founders of the Mahayana Buddhism. Nagarjuna Sagar Dam is a masonry dam across the Krishna River, which straddles the border between Guntur district, Andhra Pradesh and Nalgonda district, Telangana. As the tallest masonry dam, it is also the pride of India and the project also boasts of the largest canal system network in India. As we took the boat ride, we enjoyed the beautiful landscape and strikingly scenic water body. Crossing the border in an Auto- Rickshaw was an adventurous journey, and felt peace and tranquility at the shrine of Sagar Maatha in the calm and serene atmosphere, the pilgrim center on the shore of river Krishna. From there we went to visit Nagarjunakonda,

a historical town, now an island located near Nagarjuna Sagar in Guntur district of Andhra Pradesh. It is one of India's richest Buddhist sites, and now lies almost entirely under the Nagarjunasagar Dam. It is named after Nagarjuna, a southern Indian master of Mahayana Buddhism who lived in the 2nd century. The site was once the location of many Buddhist universities and monasteries, attracting students from as far as China, Gandhara, Bengal and Sri Lanka. Finally, before returning we witnessed the enthralling Ethipothala waterfalls, a high river cascade, situated in Guntur district. The waterfall is a combination of three streams namely Chandravanka Vagu, Nakkala Vagu and Tummala Vagu. It is situated about 11km from Nagarjuna Sagar Dam. It was a day filled with loads of fun, learning, adventure, enjoying the beauty of nature and above all the fellowship that helped us to know each other better.

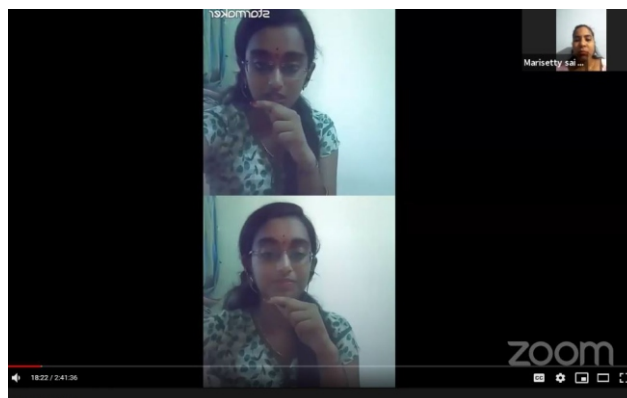

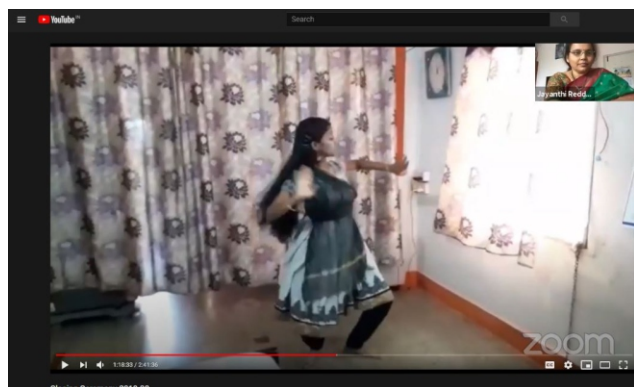

Au Revoir – Until We Meet Again - Online Farewell

Since the lockdown continued due to COVID-19 Pandemic, the juniors along with the management organized an online farewell to close officially the academic year 2019-20, on July 4 2020 using zoom portal. The principal of the college, Rev. Bro. Vincent Reddy, in his welcome address, reminded outgoing students that in their three-year journey with LFDC, all the curricular and extracurricular activities have shaped them into confident individuals through direct and indirect participation. Quoting Robert Frost, "Two Roads diverged in a Wood", he advised them to make right choices because the Choice will make a difference from whatever they have learned. He showed an inspirational video titled 'Life is Like A Cup of Coffee' through which he encouraged students to live simply, love generously, care deeply and make the best of everything, because the type of cup does not define or change the quality of life. He asked the students to carry good memories, forget the bad ones and pray constantly.

The juniors entertained everyone with their amazing singing and dance performances; these were recorded prior to the event and were played. In addition, each of the outgoing batches across disciplines had compiled videos sharing their journey in LFDC, which created a nostalgic atmosphere. And a video was presented by second years of the wonderful moments that they had cherished with everyone both in and outside the campus.

Mr. and Ms. LFDC contest was conducted online, where interested students had to register and send a video answering the questions on a given topic. These videos were shown during the event and were judged during the program. Jake Ryan Collins from III BTMC and Pariti Vishnavi from III BBA won Mr. and Ms. LFDC; Mr. Confidence – Shravan Kumar Kapu and Adyasha Mishra from III BBA won Mr. and Ms. Confidence; K Abhinav Reddy from III BBA and R. Deepika from III BTMC won Mr. and Ms. Costume respectively. The program ended with vote of thanks by the final year students.

Felicitations and Visits

Rev. Bro. Jaico Gervasis, Provincial Superior, Pune Province

The Provincial Superior and Former Principal Rev. Bro. Jaico Gervasis made his first formal visit to the College on 24 July 2019 after taking charge as The Provincial Superior for The Province of Pune. A Felicitation ceremony was organized in the Auditorium to honor The Provincial Superior. The Program commenced with a Welcome Dance followed by the lightning of the lamp by the dignitaries. A video was presented featuring pictures and clips of the Provincial Superior bringing back memories he has had during his tenure as the Principal of the College. The students performed a variety of dances ranging from Lavani to Retro and Fusion. Rev. Bro. Jaico in his address to the students pointed out the difference between the three stages of a students' life. First, is the school life, which is the most important stage where a student's personality is developed; the second is the two-year Inter, an Exploration Stage and finally the importance of becoming leaders and influencing others through words and actions during the Graduation Period. He linked it to the College Motto- 'Lead to Illuminate'. He spoke about how a student is guided all along in school but as students of Degree College one must behave like matured adults. He emphasized on the importance of using the knowledge in the right way for the right reason. They must improve themselves to be able to lead others. He mentioned that this is the right time to choose a profession. The abbreviation IAS has changed for many during the session. **I stands for Interest; A stands for Aptitude and S stands for Satisfaction** which one must have while pursuing a career. He made everyone aware of the importance of Home Makers in creating leaders in the family by helping them choose the right profession. In the interactive session he answered the answered various questions enlightening them with his knowledge.. The program ended with vote of thanks and National Anthem

Farewell

Assistant Generals from Montfort Brothers of St. Gabriel, Rome

On 11 February 2020, Assistant Generals Rev. Bro. James T.K and Rev. Bro. Jean Paul Mbengue along with Provincial Superior and former Principal Rev. Bro. Jaico Gervasis paid a visit to the college. The dignitaries were given a traditional welcome, and the program commenced with a lighting of the lamp and prayer. Principal Rev. Bro. Vincent Reddy, in his welcome address emphasized the visit of Brothers every year, which is a major event for the college and a blessing to the campus. He mentioned that the Assistant Generals' visit ensures the smooth functioning of the congregation across the world.

Provincial Superior Rev. Bro. Jaico Gervasis in his address gave an example of the way sand is filtered and only fine particles are used. Similarly, he advised the students to be matured enough to filter all the information available on the internet and decide whether the ongoing issues in the country are right or wrong. He insisted that a student pursue his higher studies rather than work right after finishing college and advised them to keep improving and be happy.

Assistant General Rev. Bro. Jean Paul addressed the gathering and expressed his pride to be a Brother and said that he believes India shows to the world what brotherhood is and advised the students not to forget the value of the country which promotes diversity and harmony while preparing for the future. He narrated the difficulties experienced in the country he hails from-Senegal. He strongly emphasized on the fact that there should be no war in any corner of the country. He pointed out that students have a great responsibility to make the world a better place.

Assistant General Rev. Bro. James addressed the gathering, sharing his experiences on how this position provided him with many opportunities to travel around the world. He narrated one such trip to Uganda, Africa where he was able to visit the Genocide Memorial. He went through the galleries, which were

I am the one whose X is always missing,
I am the one because of whom Jack brought 300 watermelons.
I am there when there's a countdown or time up.
You see me in angles of Geometry,
You see me in triangles of Trigonometry,
In differentiation and integration,
And in calculations of Combinations and Permutations.
I am there when the cells of Biology divide to multiply,
When the force of Physics goes up and its gravity pulls down.
Look closely and you will find me as to how in Economics you earn,
Or why the reactions of Chemistry burn.
I AM THE LANGUAGE WITH WHICH GOD HAS PAINTED THE UNIVERSE.
I AM MATHEMATICS.

HER.

Never has a pair of eyes seen such beauty as hers ever.
Her body like the fine sculpture of Ajanta,
Her body like a spell on one's senses,
Her body like a winding tune over one's ears,
Like the fresh fragrance before rainfall,
Like the radiance of moonlight,
Like the tempting music,
Like the blooming garden,
And the first ray of sunshine that blooms that very garden itself.
Her body.
Her body carved out by the most exotic thoughts man has ever had,
The most exotic wish one could wish for.
Her body as pure as sandalwood,
Her body as elegant as marble.
Her body.

Womens Day

DAY 1 - SPORTS DAY FOR SCHOOL, JUNIOR AND DEGREE COLLEGE FACULTY: THROW BALL TOURNAMENT

International Women's Day Celebrations Day 01: The impetus for establishing an International Women's Day can be traced back to New York City in [February 1908, when thousands of women who were garment workers went on strike and marched through the city to protest against their working conditions.](#) "Like today, these women were in less organized workplaces [than their male counterparts], were in the lower echelons of the garment industry, and were working at low wages and experiencing sexual harassment," says Eileen Boris, Professor of Feminist Studies at the [University of California Santa Barbara.](#)

In honor of the anniversary of those strikes, which were [ongoing for more than a year, a National Women's Day was celebrated for the first time in the U.S. on Feb. 28, 1909, spearheaded by the Socialist Party of America.](#) Led by German campaigner and socialist Clara Zetkin, the idea to turn the day into an international movement advocating universal suffrage was established at the [International Conference of Working Women in 1910.](#)

At Little Flower Degree College, the first day with its activities set off a chain of celebrations for the subsequent week for International Women's Day. It began with a sports day for the faculty of school, junior and degree college. A tournament of throw ball was conducted among the three faculties with 7 members per team judged by Ms. Kalyani and Ms. Varsha from Nizam College. This gave the teachers a chance to unwind from their daily schedules and showcase their additional skills. The day also saw unveiling of the schedule of the following week which brought with it a surfeit of the celebrations honoring and rejoicing the female gender.
