2021-2022

Principal's Message

I would like to take this opportunity to welcome all students and thank you for choosing our college. The students' journey is our focus, ensuring a rich and rewarding experience during your stay in the institution. We are an inclusive institution, which celebrates the diversity and uniqueness of everyone within the college

The academic year 2021-22 got off to a fabulous start with students settling into their learning and embarking on the wonderful opportunity being at LFD & PG College affords them. The vision and mission of our college provides the core values, objectives and aims through which a college walks on the trajectory of success. As the saying goes, "Without vision and mission, people perish," the same applies to college.

I firmly believe that the theme of this year "**WHOLENESS, WELLNESS, ONENESS**" is a lifelong process for a student. The institution values student empowerment, respectful relationships, pride in our society and resilience.

I would like to appreciate the staff and support staff for creating an environment conducive to learning. You have gone beyond your classroom roles and mentor students with life skills and worldly intellect. Let us continue with the same spirit to bring "Glory to God" in disseminating education to all, with the Montfortian spirit of service to mankind.

LFD & PG is a college with a difference. It is much more than voice and choice. It is the passport to the future, for tomorrow belongs to those who prepare for it today.

Vice-Principal's Message

This has been another remarkable year at Little Flower Degree College, Uppal as we continued with our mission of educating and nurturing young people in these uncertain times. I would like to thank God Almighty for his richest blessings on this institution. And we are grateful for all your favors in all aspects.

Due to Covid-19 our education system has undergone wide-ranging alterations. It's been a year through the pandemic, it took some time to adapt to the online system of learning. We have offered classes both online and offline for student's expediency. Students got their way back to learning either through physical classroom or online classroom. Our faculty consistently designed, and implemented lesson plans most appropriate for teaching and learning using technology.

We are very glad to add new program commencing Post Graduation in statistics and Psychology in this academic year. We at LFDC continue to strive to update and to maintain academic excellence. To cater to the students with different aptitudes, abilities and interests we have organized webinars, online workshops to engage students in various literary, cultural and sports activities.

We aim at fostering a generation of young people who are self-motivated, who have creative thinking, good communication skills, a strong sense of commitment and a solid foundation for lifelong learning.

“The best way to predict your future is to create it” –Abraham Lincoln

All the Best.

Online Webinar - “Importance of English for Competitive/Entrance Exams” (CAT/IELTS/BANK/ICET):

The Department of English organised an online webinar on the topic “Importance of English for Competitive/Entrance Exams” (CAT/IELTS/BANK/ICET) on 4th February, 2022. The speaker Mr. J. Raghevender spoke about the importance of the English language in competitive exams. Students preparing for competitive exams must have English skills. About 20 to 30% of marks are allotted for the English Section in each competitive exam and entrance exam. Competitive exams are like UGC NET, SSC CGL, IBPS PO etc. and entrance exams are like CAT, MAT, CLAT, CET, etc. One-fourth of the total weightage on the written exam of first level is given to English. After that, Group Discussion and Interview level combined together make 80% score for English language.

He spoke about the two types of tests, generic and specific. Generic test is about the aptitude test where an assessment is used to determine a candidate’s cognitive ability or personality and the specific test depends on what kind of job you want to be into.

He spoke about personality development and how you take part in the activities in the college or organise the events that give growth to our personality and make us a confident person. He spoke about how important is English in competitive exams, he stated that Math’s needs Intelligence, Physics necessitates Imagination, Chemistry necessitates Agility, Biology necessitates Memory, and GK & Current Affairs necessitate Awareness. Unfortunately, there is no word that we can attach with English to describe "what English requires," because mastering the English language necessitates a combination of variables.

He said that to be perfect with the English language you should have the five language skills : Reading, Listening. Speaking, Writing and Grammar. Even he told that if we mastery over this five skills we can overcome any type of competitive exams and in the last he told to practice, practice and practice

Department of microbiology along with the Johann Mendel club organised a poster presentation event on the Anti Inflammatory diet that can reduce the risk of infection due to diseases on 27th October in Karunya court. The main objective of this program was to educate the students on inflammatory diseases and how it can be minimised by the use of an anti-inflammatory diet instead of heavy dose medicines. Students from second year and final year presented posters on diseases like Asthma, Tuberculosis, Arthritis, Obesity and Autoimmune disorders. The treatment available cannot cure autoimmune disorders but they can control a patient's overactive immune response. Many autoimmune disorders can be treated or cured by shifting to an anti-inflammatory diet . An anti-inflammatory diet focuses on fresh fruits and vegetables. Many plant-based foods are good sources of antioxidants and the dietary antioxidants are molecules in food that help remove free radicals from the body. They focused on the anti-inflammatory diet and spoke about the comparatively harmful aspects of medicines.
