

FIELD TRIP REPORT

VENUE: Tibcon capacitors

DATE:3/8/22

CLASS:MPCS,MPC,MEC

TIME: 9:00 TO 3:00

Department of Physics and Electronics has organized a field trip to “Tibrewala Electronics LTD, BHEL Ancillary Industrial Estate, Hyderabad “on 3/8/2022. Students of III MPCS, MPC, MECS accompanied by Ms. Nagalakshmi, Dept of Electronics and Ms. shajahan begum, Dept of Physics have attended the field trip.

Tibcon Capacitors produce various types of highly advanced capacitors with fully automatic machinery & mistake proofing systems at all manufacturing stages. These capacitors are highly reliable and of good quality with great performance. Tibcon capacitors is one of the leading manufacturers in India, the company make sure that their products are safe for both the people and the environment.

The Plant Engineer Mr. Manohar divided the students in to groups of 20 and showed the Plant. He explained about Construction of various types of capacitors Like Lighting capacitors, PFC capacitors, Oil Filled capacitors etc. He also explained about the various areas in which these capacitors are used.

Students were shown how capacitors are manufactured, assembled, tested, logo labelling and packaging are done. They gained the knowledge about various capacitors and their applications.

LITTLE FLOWER DEGREE COLLEGE, UPPAL
LUCA PACIOLI COMMERCE CLUB
Report on “FIELD WORK AT SUDHA CARS MUSEUM”

Program:	Field Work at Sudha Cars Museum
Date:	06/08/2022 to 08/08/2022
Time:	2:00 pm – 4:30 pm
Participants:	Students from commerce club
No. of students:	40
Objective :	To help students Stimulate critical thinking and observation skills through hands-on exploration of museum exhibits.
Outcome:	Students gain knowledge about different types of cars and their historical significance.

The Luca Pacioli Commerce Club, Little Flower Degree College, Uppal has organized a fieldwork at Sudha cars museum situated at Bahadurpura, Hyderabad for the students of commerce club. The field work was held on 06/08/2022 to 08/08/2022 from 2:00 pm – 4:30 pm. The number of students who attended the Field work were 40 students.

Day 1: Exploration of the Museum:

The students journey commenced with an exciting exploration of Sudha Cars Museum, where we were greeted by a giant car and bike at the entrance, both of which were operational. Led by the Commerce Club Coordinator, students delved into the museum's exhibits, beginning with a display of ancestral cars like the modified Maruti 800 swings. Throughout the tour, museum staff provided insightful explanations about the history and significance of the showcased cars, including vehicles from World Wars and ancient cycles dating back to the 1900s.

Day 2: Online Documentation and Interaction :

The second day was dedicated to gathering information for our fieldwork reports. The students revisited the museum to collect essential data under the guidance of the museum manager. Despite being a weekend, the manager patiently addressed the queries and shared valuable insights into the museum's operations. Although access to the production house was restricted, students eagerly anticipated a future opportunity to explore it.

Day 3: Exploration of Historical Cars:

The third day of fieldwork focused on exploring the historical significance of cars exhibited at Sudha Cars Museum. Noteworthy among the antique cars was a replica of the 1925 Rolls Royce Silver Ghost, meticulously crafted with a 1100 cc engine and a handmade metal body. Additionally, the innovative Computer car, featuring a Kinetic Honda engine and functional mouse and keyboard, captivated our attention. Students also admired other classic models like the buggy and Ambassador, alongside modern additions like the Omni and Fiat Padmini, impeccably preserved in pristine condition.

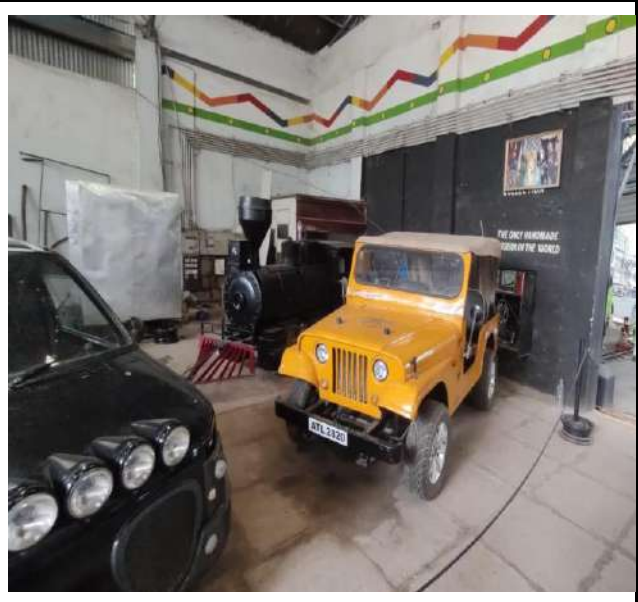

Day 4: Insight into Manufacturing Process:

On the final day of the fieldwork, students were privileged to witness the manufacturing process of a Volkswagen vehicle at the museum's production unit. Through detailed demonstrations and informative briefings by the management, we gained insights into the intricacies of car production and the utilization of various machinery and tools. This firsthand experience enhanced our students' understanding of the automotive industry and provided valuable material for the fieldwork reports.

CONCLUSION:

Field work at Sudha Cars Museum was an enlightening and enriching experience, offering a glimpse into the fascinating world of automotive history and innovation. We extend our gratitude to the museum staff for their hospitality and knowledge-sharing, which contributed to our student's learning and appreciation of this unique cultural institution. Through this field trip, students have gained valuable insights and memories that will endure long beyond students' academic endeavors. It encourages further exploration of manufacturing processes and industry insights to broaden students' understanding of real-world applications in the automotive sector.

FIELD TRIP TO IMH (ERRAGADDA)

DATE: 20th APRIL,2023

IME: 09:00 AM - 2:30 PM

VENUE: IMH ERRAGADDA

PARTICIPANTS: 50

REPORT ON

FIELD TRIP TO INSTITUTE OF MENTAL HEALTH - ERRAGADDA

OBJECTIVE The Department of Psychology conducted a field trip to IMH on 20 April, 2023. The field trip was conducted from 9.00 am to 2:30 pm. 50 Students of M.A & BA Psychology of all years took an active part in the field trip.

The objective of the field trip was to give practical exposure to various psychological disturbances which they study as part of their curriculum

Field trip was taken place for the students of Post Graduation and undergraduation to make them understand and practically experience their role in the future. Trip was planned on 20/04/2023, with 50 students and faculty (3) from the Psychology department. Students were taken to IMH, Erragadda, hyd. Reached the institution by 09:am. After reaching the institution, clinical psychologist Venkata Subbaiah addressed students and given instructions about student's behavior and safety measures while attending the patient, from there students were taken to outpatient wards, where students could interact with family members of patients, who are suffering with various mental illnesses like, Mood disorders, Schizophrenia, Anxiety and Depression. Students noted down the symptoms, severity and causes of the cases that they have observed.

There were nearly more than 600 patients in the institute both inpatient and outpatient. The students were also taken to in-patient open wards of both males and females where special cases like paranoid schizophrenia, bipolar disorders related people were admitted for inhouse treatment.

Outcome: The students learned many things about the treatment procedures, how important a clinical psychologist is for the institute, about causes of mental illnesses.

The students feedback would be positive, given the engaging content of the Field Trip. They likely appreciated the insights about the clinical methods to determine the illness, importance and scope of clinical psychologists, also types of treatments, interventions and assessments used.

FIELD TRIP to ICRISAT

On the 19 of October 2022, the students of B.Sc. (Statistics) and M.Sc.(Statistics) along with 2 lecturers went for a field trip to **ICRISAT**, Patancheruvu, Hyderabad. We arrived there by 11.45am. We went on a field trip to witness the exposure for students regarding agriculture held by ICRISAT.

The objective of the trip was to get to know about the various dimensions that we have in the ICRISAT in terms of their research and to get exposure on various subjects projected by them.

We were allotted with a guide who had explained in detail about the place and the research that is done there. During the tour, we jotted down some notes and listened to the host regarding various agricultural equipment in the field. The question and answer session went for an hour. We also managed to get a good amount of knowledge regarding soils, the landscape of the ICRISAT, agricultural experiments and so on.

Due to time constraints as there were many things to watch and to ask, we tried to get as much knowledge as possible.

We learned various things about agriculture in millets and their varieties. We also found out about career opportunities. The conductivity of the environment of the place was pleasant and which could help students to apply in future especially those who are interested in geodesy.

Our trip ended by 1 pm. It can be concluded that the trip was successful and we believe that our objective was achieved. We learned something new and beneficial for us. It is well recommended for students who are curious to learn new things and explore new methodologies. We are thankful to our principal and correspondent Rev. Bro. Vincent Reddy and our lecturers Ms. T.Manjusha and Mr.R.Kumar who accompanied us by picking out their valuable time.

FIELDTRIP TO ATLANTIS PHYTOTECH

Date	17 th April, 2023
Venue	Atlantis Phyto tech, Quthbullapur
Timings	10:00 am to 1:30pm
No. of participants	11
Objective	To expand perspectives and promote exploration by introducing students to industrial plant tissue culture unit.
Outcome	<ol style="list-style-type: none">1. Students got exposed to the industrial production of Plants2. Students were able to learn the techniques and protocols for plant tissue culture

The Faculty of Biotechnology, Little Flower Degree College organized a field trip for the Biotechnology students of B.sc Life Sciences to Atlantis Phyto tech, Hyderabad on 17 April 2023. It was an informative and valuable experience for the students as they had the opportunity to observe and learn about cutting-edge research and technology in plant biology and biotechnology.

They saw the firsthand different techniques used in plant breeding, genetic modification, and tissue culture, as well as gained insights into the commercial application of these technologies. Overall, the field trip provided students with a practical and hands-on experience, reinforcing their classroom learning and inspiring their curiosity for the subject matter.

Field trip to Iskabaigudum village

Name of the event : Filed trip to Iskabaigudum village

Date : 24/O2/2023

Venue: Iskabaigudam, Nalgonda Dist.,

Time: 8:30 am to 6:30pm

No. Of Participants: 50

The Faculty of Political Science along with the Faculty of Mass Communication and Faculty of Psychology organised an educational field trip to Iskabaigudam village in Nalgonda district. The main purpose of this visit is to give the students of BA II and III years a practical live meeting of Gram Sabha meeting. The trip started from the college at 8:30 am in a private bus, and it took nearly 2 and half hours to reach the destination. As soon as the we reached the village, the son of Sarpanch met us and immediately took us to the gram sabha meeting. There the Upasarpanch Mrs. Israth and the Sarpanch Mrs. Govindamma spoke about the development programmes undertaken in the village, and how government funds are utilized for the upliftment of the village. They also spoke about the programs for poverty alleviation, social and economic development and empowerment of women, as it could be seen with both Sarpanch and upa sarpanch being women. A video the entire events starting form the gram sabha meeting till the planting of saplings, was taken to be compiled into a documentary for the college, under Mr. Nobin, faculty, of mass communication and journalism. Later in the course of the day, a qualitative survey was taken by the students of psychology under the guidance of Mr. Ganesh Faculty of Psychology to understand the villagers satisfactory process.

Festa Lettararia (Inter Collegiate Competition)

Date: 05,06 – 12 – 22

Venue: Montfort Hall

Event: Live reporting

Name of the Programme: Festa Lettararia,(Inter Collegiate Competition)

Time: 10:40 am to 11:00 am

No of participants: 4

The Faculty of Mass Communication and Journalism conducted two events – **Video presentation and Live reporting**- competitions as part of the Inter collegiate Literary competitions on 5th of December at 10:40 am in Montfort Hall. For the Live Reporting Competition, students were shown images of various events where they had to give spontaneous report as if they are witnessing the event. Four students from different colleges participated in the events. This event was conducted to determine how well the students can think creatively and spontaneously within a given time limit. Students' clarity in thought presentation style, body language and awareness of the issue were taken into consideration for the judgement. The result of the Live Reporting is as follows:

1st prize- G. Madhav, LFDC

Short Film Production

Event: Short Film Production

Theme: ASHA Hope for life

Date: 14/ 09/ 22 to 30/09/22

Venue: College Campus

No of Participants: 11

The Faculty of Mass Communication produced a short film to enhance the creative and practical skills of students in journalism. The students of 3rd BA came up with multiple scripts and one script was chosen amongst it. The story travels through the life of a teenage schoolgirl Saraswati and the pressure she undergoes coping with academics. Permission was taken from college authorities for shooting in the campus.

The first phase of pre-production was done from 14/09/22 till 20/09/22. The off-campus shooting was completed on 22/09/22. Post- production work started right after it and the film were edited by Mr Samson Palangi of BA 3.

Little Flower Degree College

(Affiliated to Osmania University)
