Policy Document

GREEN ENVIRONMENT FOR SUSTAINABLE LIVING POLICY

INTRODUCTION: The College recognises that its functioning can have an impact on the environment and is therefore committed to minimise this impact by complying to a wide range of sustainable practices and setting targets to continually improve its environmental performance in and around the college campus. The college is committed to developing a sustainable relationship between the staff/student and environment through teaching, practice and college policies. College strives to play a leading role in developing renewable resources to operate and work to restore the ecological functions on which future generations will depend. Environmental management is both a goal and top priority in all decision-making at LFDC. For this purpose the college has constituted the LENVIN club to fulfil its goals.

POLICY STATEMENT:

The core mission of LFDC is the education of its students. One aspect of such education is the demonstration by its actions of the college's concern for, and protection of its physical environment. LFDC must be a responsible pursuer of the environment. Our Policy follows 4 life cycles- Plan, Build, Manage and Dispose.

As such the college will follow:

Water Management:

Rain water harvesting (collection and storage of rainwater)

Ensure tank water is used effectively in washrooms and to maintain gardens, trees and grassed areas.

Waste Management: Degradable and Non-Degradable Waste:

Solid Waste Management

Liquid Waste Management

Bio Medical Waste Management

Hazardous Chemicals & Radioactive Waste Management

E-Waste Management

Campus Management:

Staff/students will engage in the maintenance of college gardens.

Green audit

Tree diversity

Faunal diversity

Fire Safety

Hyderabad - 500 039

Mobile : 7673960152
E-mail : littleflowercollege@gmail.com
Website : www.lfdc.edu.in

Energy Management:

Installation of solar panels.

Controlling and reducing organisation energy consumption.

Carbon Management:

Use of long-lasting light bulbs. Energy efficient light-bulbs reduce greenhouse gas emissions. Also flip the light switch off when leaving the room.

Encourage the staff/students for carpooling, battery operated vehicles and use of bicycles as well as pedestrians to control the emission of CO₂.

Learn about waste disposal and where their rubbish goes. Protect open space in college and keep it clean. Make the college plastic free.

Embedding environmental preservation in the curriculum (EVS)

Training/Awareness:

Ecological balance is the greatest challenge facing mankind. LENVIN CLUB OF LFDC brings awareness/training programmes like:

Community talk- Clean and Green drive in the surrounding vicinity of the college.

Seminars/Workshops Van Mahotsav or Forest festival (tree-planting festival in month of July)

Buying reusable items (stainless steel tumblers, own steel water bottles etc)

Use of fuller's earth (natural skin care)-Making girl students aware of this natural product for the face. Benefits of Rainwater harvesting, through demonstration.

Ways to reduce food and water by speaking to the students about it in the classroom and making them practise it. Plant a tree on commemorative days.

Staff/students are encouraged to go as volunteers for cleanups in their own community.

Staff/students are educated on the importance and value of our Natural resources.

Raise awareness among staff/students about the environmental impact and promote good practices for a sustainable living and sensible use of water.

The college evaluates the environmental management procedures by Green audit.

All labs implement and maintain their own waste management practices.

Date: 26.11.2022

CIRCULAR

The LENVIN club is organizing an eco-friendly stall event to commemorate **World pollution prevention Day**. **The event is organized** to bring awareness about various eco-friendly products available in the market on 3rd December 2022 in Little Flower Degree & PG College, Uppal. We invite all the students to actively take part in the event. Interested students can contact J. Usha Rani, LENVIN Coordinator in the first-floor staff room.

Details:

1. Students can put their stalls by paying 100 Rs.
2. Maximum two students can put up a stall.
3. Students who are not a member of lenvin club have to enroll by paying Rs. 50 to the coordinator or the secretaries.
4. Students can either make their own products or buy readymade products and sell.
5. Students can sell eco-friendly products including decorative, stationery and food items (food, decorations, clay pots, ecofriendly pens and pencils, handmade diaries, painted clay pots, jute and cloth bags, fermented food products etc.)
6. The product must either be sold at the market price or lower.
7. Certificates will be provided to the best stall idea and to the highest profit earning stall.

Name of activity: Eco-friendly stall

Date: 3rd December 2022

Venue: LFDC

Participants: lenvin club
