Green Campus Initiatives

Our college is committed to foster a sustainable environment through the preservation and planting of trees on campus. The campus has 110 species of plants in multiple numbers which enhances the overall well-being of the campus environment. Green Campus initiatives in the college include efforts to preserve existing variety of species of plants and also plant new ones. Each tree has been given a scientific name and numbers to preserve the trees. This enhances the overall well-being of the campus environment. Numerous activities like 'HARITHA HARAM' and SWACHH BHARAT were organized to bring awareness on College Green Campus.
